dumaplast®

EXTRUDED PRODUCTS

Dumaplast was founded in 1988 and is a leading producer of decorative cladding with a wide range of fitting types and visual finish options. Duma products are manufactured to meet the highest quality standards using an in-house compounding facility.

SYMBOLS YOU WILL SEE

These panels are waterproof, and are suitable for bathrooms, wet rooms, shower areas etc.

These panels are easy to clean and maintain with basic house hold cleaning materials.

These panels are easy and timely to fit using a basic range of common house hold tools.

These panels are highly resistant to impact, making them a great choice for commercial customers.

30-37

VOX has been one of the most innovative brands involved in designing and manufacturing both internal and external wall panels in Europe for 30 years.

VOX wall panelling is designed with attention to detail, quality and with functionality in mind; as a result, you can create a beautiful and complete interior totally suited to your needs, individuality and lifestyle.

38-57

SYMBOLS YOU WILL SEE

These panels are waterproof, and are suitable for bathrooms, wet rooms, shower areas etc.

These panels are easy to clean and maintain with basic house hold cleaning materials.

These panels are easy and timely to fit using a basic range of common house hold tools.

These panels are highly resistant to impact, making them a great choice for commercial customers.

These panels feature a distinct texture which interacts with the light to look even more natural.

These panels come as a pack of four to create a full pattern effect.

These panels come as a pack of three to create a full pattern effect.

These panels come as a full pack of eight to create a specific pattern.

PanelStone®

GENUINE NATURAL STONE FINISH

58-63

Panel Stone wall panels create a strikingly beautiful space with realistic brick, stone, and slate design. With a real stone surface, you get the look and feel of real stone materials but with much reduced installation time and cost.

Panel Stone wall panels are made with molded real crushed stone that has been layered on top of high density foam. This combination creates a realistic natural feel and, just like traditional brick and stone, is even cold to the touch for a truly authentic design.

THERMO-S L A T

Designed with the stunning visuals of a conventional slat panel and the functionality of a thermally insulated wall panel.

Each of our wall slats are designed with a cavity in the back to offer thermal air pockets to help retain heat during the cold months and help keep the room cool in the summer. Not only do these panels offer a beautiful visual appearance inside, they also are a fantastic addition to any garden room to make use of your functional outdoor living space all year long.

HARDEX SOLID WALL PANELLING

The Hardex range developed by MB uses 100% Wood Plastic Composite (WPC) to satisfy the needs of customers who require a hard wearing, ultra durable solution that's as stylish as it is tough. Supplied with a flush square edge style fitting and consisting of 8 colours, this range is ideal for not just the home but also commercial use, such as in restaurants, pubs, offices, caravan parks, youth clubs and public restrooms due to its solid construction.

We advise that all the Hardex range is fitted with our MB Megabond adhesive and with a 'H' section trim to ensure continuity throughout the fitting area.

VILO SOLID TILE SPC

Beautiful and unique, the Vilo Solid Tiles are durable, long-lasting and easy to install. These waterproof wall panels are manufactured using SPC (Stone Polymer Composite) technology.

They are based on a high impact resistance hard composite core, which in turn has been coated with a decorative layer, and protected with a UV-resistant coating. This gives the panel a high resistance to scratches and damage.

Thanks to the click design, the installation of the panels is simple and intuitive, and the joints are very subtle and do not require grouting.

Slat panelled walls with depth

S, M & L-LINE

Vox Linerio is a new addition to our solid panelling range. This decorative interior lining material imitates timber slat panelling and is available from us in three sizes - small, medium and large, which vary in width and depth of slats.

Simple to fit and complimented by matching finishing profiles, Linerio adds unique character and a touch of class to any interior. Mount them vertically, horizontally or diagonally these panels allow you to designate different zones in your interior.

FRONTO | SLAT PANELS WITH MANY POSSIBILITIES

FRONTO

Introducing the new collection of VOX Fronto outdoor slat panels. For use on walls and ceilings, the panels will work well on an entire building or as a single accent on one wall. You can install Fronto slat panels in a vertical or horizontal position. Lightweight, waterproof, easy to clean, maintenance free, quick and easy to install, Fronto slat panels are highly impact-resistant, with a high resilience to changes in temperature.

Fronto outdoor slat panel are made with the innovative Max-3 technology. Each panel is constructed with 3 layers with the top layer being responsible for resistance to changing weather conditions. The middle layer provides increased impact resistance and the bottom layer has high resistance to both low and very high temperatures. Thanks to this technology, Fronto panels have a durability similar to metal panels!

PanelStone®
GENUINE NATURAL STONE FINISH

Panel Stone wall panels create a strikingly beautiful space with realistic brick, concrete, and slate design bringing a touch of class to any wall to which they are fitted. With a real stone surface, you get the look and natural feel of traditional materials with colours and textures that need to be seen and touched to be believed.

The innovation of Panel Stone is the unique construction - a natural top layer of moulded real crushed stone applied to a base layer of polyurethane high density foam. This combination creates a highly authentic visual finish which is 100% real to the touch. This method of construction means that Panel Stone is strong and durable but also lightweight and easy to handle and transport resulting in reduced installation time and costs when compared to traditional natural materials.

SOLID WALL PANELLING | GENUINE NATURAL STONE FINISH

Representing something totally different to the UK market. Panel Stone is as practical as it is beautiful.

SOLID WALL PANELLING | SLATE

PAGE 61

SLATE

Available in this range are three slate effect finish options. High quality solid wall panels which can be used to great effect as feature walls in the home as well as when fitted in commercial locations such as hotel reception desks around pay points and sales counters and on restaurant mid walls.

NATURAL COLLECTION

The Natural Flooring Collection features Rigid Core Solid Polymer Composite technology; this range is made up of a composite core construction and is a step up from traditional solid LVT flooring.

Featuring a higher filler content and a higher density, the lack of foaming agent used means air bubbles in the core are omitted; this results in a thinner, harder and stiffer plank or tile.

Seven wood effect (below) and five stone effect (right), tile finish options are available, all with a wear layer of 0.30mm.

LAYRED®

With integrated underlay and easy click method LayRed is Moduleo's strongest engineered vinyl floor and designed to stand its ground in the most extreme conditions. The multi-layered floor with its strong core offers all the advantages of vinyl and adds strength to it plus it is barely 6mm thick.

LayRed floors can be installed quickly and easily and the tactile surface provides more relief and texture in the planks. The difference between it and a real parquet floor is hardly noticeable.

One Panel, Twelve Layers, Three Benefits:

METAL BASESEAL

PLASTIC SURESEAL

PLASTIC CLADSEAL

BATH & SHOWER SEAL RANGE

Our bath and shower seal range ensures a visually appealing and water tight finish for around bath and shower areas. Please see the below information for all product details, including construction materials used - two of these seals do require the use of specific end caps.

| Description | Length | To Suit | Colours | Code |
|--------------------|--------|----------|---------|-----------|
| Metal Base Seal | 2.4m | 11.5mm | White | QMBTR28-M |
| Plastic Sure Seal | 1.85m | 8mm-10mm | White | QMBSEAL |
| Sure Seal End Caps | N/A | N/A | White | QMBSEALEC |
| Plastic Clad Seal | 1.85m | 5mm-10mm | White | QTRIM/W |
| Clad Seal End Caps | N/A | N/A | White | QTRIM/E |

HOLLOW PVC-U SKIRTING & ARCHITRAVE

- No sanding, painting or treatment — ever!
- Glue-on fitting with standard building adhesives
- No maintenance — just wipe clean
- Durable, scratch-resistant finish
- Integral low-voltage cable tidy solution
- Manufactured from recycled PVC-U for minimal environmental impact
- Colours complementary to your bespoke interior

As well as a clean White Satin finish Roomline skirting boards and architraves are also available in an on-trend Anthracite Grey and English Oak to give you all the aesthetic benefits of timber.
