My RESIDENCE *Case Study*

Situated in the market town of Whitchurch, this uniquely designed new build home has been designed with The Residence Collection as part of the specification and features 20 brand new windows.

Residence 7 was the natural choice due to its flush external and internal profile. This creates clean, elegant lines that provide a modern and sleek character, being the perfect fit for a contemporary house such as this. Not only does it outperform with looks, it has excellent properties for low energy ratings, with a u-value of 1.2W/m²K.

Windows	Residence 7
Manufacturing Method	Timberweld® joint, designed to mimic a traditional timber joint.
Configuration	Combination of side and top hung opening casements with some fixed casements.
Colour	External: Noir Internal: Noir
Features	Planitherm total plus low E-coating - argon filled - Edgetech super spacer.
Glazing Bead	28mm square bead

Noir was chosen over black aluminium, the smooth texture of the foil maintained the sleek modern appearance needed for the contemporary build.

The equal sight-lines work with the architecture and the white render and timber cladding look gorgeous against the black tones.
