SL 50 SLIMLINE SYSTEM

The SL 50 Slimline System is sure to make a statement in any interior space with its timeless and retro, yet modern look. The striking slim design offers exceptional attention to detail and is complimented with quality products used throughout.

The SL50 has a positive environmental footprint as it designed to be fabricated locally from aluminium, one of the most recyclable materials on the planet.

INNOVATION

The development and design of this system was part of APS winning a prestigious award and receiving support from UK Research and Innovation who identified this product as an exceptional proposal that offered an exciting alternative to this sector of the market.

MATT BLACK

AGED BRASS

POLISHED STAINLESS STEEL

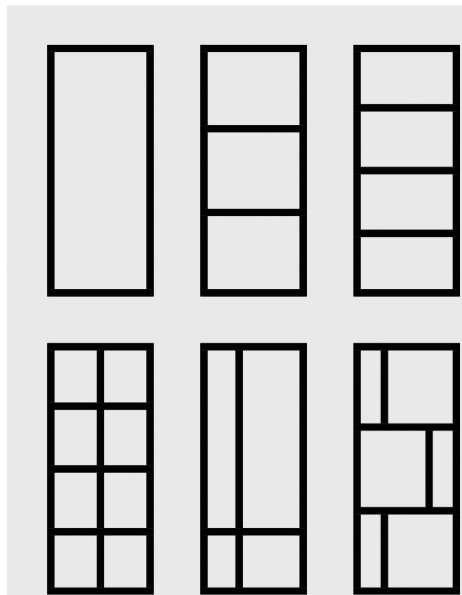

Innovative glazing bar clipping system.

IRONMONGERY

The SL 50 includes premium handmade ironmongery that combines beauty with durability. Expert blacksmiths hand craft these exquisite handles by forging mild steel and hot forging brass to make one-of-kind ironmongery that last a lifetime.

The SL 50 comes with a range of modern and styled handles. APS offer a range of premium designs in polished stainless steel, aged brass and matt black.

GLAZING BARS

The glazing bar system has been designed as an easy to apply astragal bar solution for use with the SL50 system. It utilizes a sprung steel clip fixing system to allow for ease of application, consistent line-throughs and long-term performance.

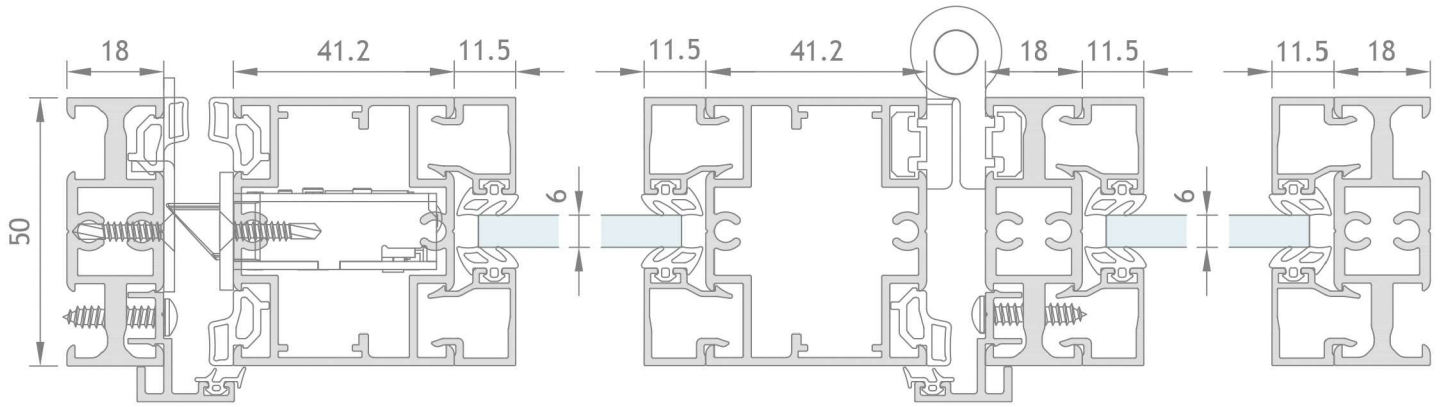

The glazing bar system can be configured in any arrangement, using single or in multi-bars to create a heritage, steel window look.

DOUBLE AND SINGLE GLAZED OPTIONS AVAILABLE

Single glazed bars come in triangular and square options. Double glazed bars come in 25mm and 40mm wide options.
