

Double Plain Tile Vent

Description

Available in up to four colours, with a 10,000 mm² airflow and can be laid down to 20° roof pitch.

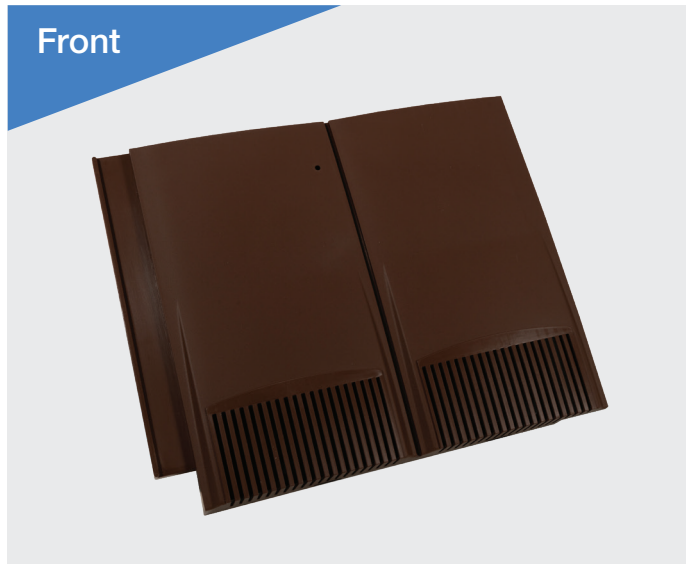

If used for Roof Ventilation for 10,000 mm space every 1 m and for 5,000 mm² space every 2 m.

Guidelines for use

Fit whilst laying the roof (can be retro fitted as well).
Roof membrane needs to be cut to allow penetration into roof space, with membrane folded back over top batten.

Can be used in conjunction with our Flexi-Pipe ULTI3FP if connection required.
